Eating Time Procedure

The scheduled 11.00-11.10am Eating Time is a class lesson, during this time we should be teaching Personal Development lessons, such as manners, cleanliness, etiquette and ensuring our students are eating their lunch.

This is learning time for the students in your class; it is not a lunch break. Our lunch break is from 11.10-11.40am.

- Eating time must be supervised in your classroom.
- The classroom teacher supervises eating time.
- Classes are not to be supervised by teachers taking turns on a roster. It is allocated teaching time, all teachers need to be on duty during this time, just as they would in any other curriculum lesson.

If you are on playground duty from 11.10am and you require a toilet break, organise with your buddy next door to briefly cover your class. Teachers in the classrooms near the small playground can use the staff toilet near the laundry in Block H.

Outcome: By following this procedure, our children will learn how to eat and socialise together. Students will be responsible for keeping their classroom environment clean. Teachers will be better able to monitor and ensure students dispose of their rubbish. Our playgrounds will be much cleaner.
